note here in record that marriage license law in effect 1 Jan 1908

researchers should be aware that this meant that reports of marriages were then sent to the county clerk's office and are on file at Mayville.

At this point, the pastor ceased recording the names of parents of the couple, perhaps because the new law did not require this. The parent's names are not given in the record at the county court house in Mayville.

The following nine pages are a search of marriage records extracted from twenty volumes of indexes to the Evening Observer published in Dunkirk beginning in December 1882. These indexes list all births, deaths, and marriages reported in this newspaper from 1882 until the end of the year 2000. At that time the Observer began posting its obituaries and birth notices on the Internet so it seemed no longer useful to publish these indexes. These books, published by the Chautauqua County Genealogical Society, can be seen at many local libraries including Dunkirk Free Library, Barker Library and Reed Library, both in Fredonia. By using these indexes, the researcher can find the original article on microfilm. Microfilm copies of the Observer can be seen at either Dunkirk Free Library or at Reed Library on the campus of New York State University College at Fredonia.

We felt it was necessary to include this section in this Church Record because there were gaps in the records held by the Church and it is hoped this search will fill in some of the missing information

Genealogical Information reported in the EVENING OBSERVER - compiled by Lois Barris
